OVERVIEW

Motivated and quick-learning programming enthusiast with a good foundation in computer science and web development. Seeking an opportunity to apply my skills, contribute to real-world projects, and grow within a collaborative and innovative tech environment.

SKILLS

- Programming Languages: JavaScript, C/C++, Python, Java, HTML, CSS, Flutter
- Web Technologies: React.js, Next.js, Node.js, Express.js, WordPress, Tailwind CSS, MongoDB
- Databases: SQL, SQLite, MongoDB
- Tools: Git, Docker, Postman

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)

Amrit Science Campus, Thamel, Kathmandu

2022 - 2026

PROJECTS

- **Vaxocare- A Child Vaccine Management System | React, Express.js, MongoDB, Socket IO**
A comprehensive Child Vaccination Management System designed to help parents and healthcare providers track and manage vaccination schedules. Features real-time notifications via Socket.IO to alert guardians of upcoming doses, with a full MERN stack backend ensuring secure and accurate record management.
<https://vaxocare.vercel.app/>
- **Blog App | React, Express.js, MongoDB**
Developed a full stack blog application enabling users to create and manage blog posts, using JavaScript (React) for logic, NodeJS (expressJS) for server-side rendering with JWT Authentication and MongoDB for persistent data storage.
<https://blog-app-main-qhme.onrender.com>
- **Note App | React, Express.js, MongoDB**
Built a MERN-based note-taking application with RESTful APIs supporting full CRUD operations and a responsive React UI with MongoDB-backed data persistence.
<https://prayushbogati.github.io/Keeper-App/>
- **Password Manager App | React, Tailwind CSS, Express.js, MongoDB**
Built a password manager application using the MERN stack with RESTful APIs enabling secure CRUD operations for credential management, a responsive React UI styled with Tailwind CSS, and MongoDB-backed data persistence via Express.js.
<https://prayushbogati.github.io/password-manager/>
- **To-Do App | JavaScript, EJS, MongoDB**
Built a task management application allowing users to add, update, and delete to-do items, using JavaScript and EJS for dynamic rendering with MongoDB for data persistence.
<https://github.com/prayushbogati/ToDo-App-node>
- **Tic Tac Toe Game | JavaScript, Tailwind CSS**
Developed an interactive tic-tac-toe game with game logic implemented in JavaScript and a responsive, user-friendly interface styled using Tailwind CSS.
